RE: Sahtu Land Use Plan, Draft 1

Dear Mr. T'Seleie,

It has come to our attention that the Sahtu Land Use Planning Board released a Draft Land Use Plan in February 2007 which we only became aware of today, the deadline for comments. At no time was our Company, a significant stakeholder in the area, advised that this process was ongoing and would significantly affect our ability to conduct business on our mineral leases and claims.

We are the owners the Mactung deposit located on the border of the YT and NWT, adjacent to the Canol Road and we need additional time to review the Sahtu Land Use Plan Draft in detail.

We respectfully request an extension to the May 31, 2007 deadline for the purpose of submitting our comments. We further suggest the period for comments be extended to the end of November 2007. As stakeholders we ask that you add us to your distribution list with our contact details as follows:

North American Tungsten Corporation Ltd.,
Suite 1400 – 1188 West Georgia Street,
PO Box 14,
Vancouver, B.C. V6E 4A2
